WORK EXPERIENCE

HPE Aruba Networking - Technical Solutions Consultant II Apr 2022 – Dec 2025

- Analyzed Aruba AP logs and packet captures to identify client connectivity issues and root causes.
- Conducted real-time troubleshooting (via remote sessions) to restore network operations ensuring minimal exposure and maintaining service continuity (low MTTR).
- Collaborated with end-customers to examine audit trails, security alerts, event logs, and reports, ensuring compliance and identifying suspicious activity.
- Identified misconfigurations to maintain smooth and secure network connectivity.
- Maintained automated scripts and API integrations to extract logs and push configurations for large-scale deployments (up to 10,000 devices).
- Enforced cloud-based authentication and access policies for users and devices.
- Implemented SD-WAN solutions via Aruba Central for centralized management.
- Configured VPNs, firewalls and Rogue-AP/IDS to protect networks from unauthorized access.
- Drafted bugs and escalated findings to engineering teams to support timely resolution.
- Contributed knowledge base articles from recurring incidents across multiple customers to improve response efficiency and standardize mitigation procedures.

DataEra - Intern Jan 2021 – Jun 2021

- Implementation of an open-source security solution for real-world use. Including pfSense (firewall/routing), Snort (intrusion detection), FreeIPA (identity/auth management) and Zabbix (system/application monitoring).

Tunisie Télécom - Intern Jan 2018 – Jun 2018

- Development of a web application for inventory management and monitoring of IP/MSAN sites.

Freelance 2025 – Present

- Occasional deployment of IAM and network sharing for small businesses.

EDUCATION

ESPRIT - Private Higher School of Engineering and Technology 2018 – 2021

National Diploma of Computer Engineering - Network, Infrastructure & Data Security

ISI - Higher Institute of Computer Science 2015 – 2018

Applied Bachelor's Degree in Computer Networks - Administration of Networks and Services

CERTIFICATIONS

- Sec+ SY0-701 : CompTIA Security+ SY0-701.
- ISC2 CC : ISC2 Certified in Cybersecurity.
- MS SC-900 : Microsoft Security, Compliance, and Identity Fundamentals.
- MS AZ-900 : Microsoft Azure Fundamentals.
- AWS CLF-C02 : AWS Certified Cloud Practitioner.

PROFESSIONAL ACHIEVEMENTS

- Consistently score above 80% in SLA and CSA metrics.
- Awarded Top Performer (H1 FY24).
- Promoted to Technical Consultant II (Q4 FY23).
- Awarded Extra-Miler (FY22).

TECHNOLOGIES & TOOLS

- Defensive Security: EDR, XDR, MS Defender, MS Sentinel, Entra ID, Intune, SIEM, SOAR, Splunk, Snort, pfSense, Fortinet.
- Offensive Security: Kali Linux, Metasploit, Burp Suite.
- Cloud Environments: HPE GreenLake / Aruba Central, MS Azure, AWS.
- Networking Tools: GNS3, Wireshark, Zabbix, OpenVPN.
